

# Geography KS3

## Mastery in Year 9

- Deepen knowledge and understanding of physical and human processes and how those processes can influence one another.
- Gain confidence with interpreting a wide range of sources of geographical information and using it to make assessments or decisions.
- Be able to communicate geographical information in a variety of ways.

### MEGACITIES

Will we all live in a megacity one day?

### ASIA DEPTH STUDY

Why has China become the superpower of Asia?

### TRADE AND GLOBALISATION

Does globalisation provide more opportunities than threats?

### RUSSIA DEPTH STUDY

How has Russia's development been influenced by its location and physical geography?

## TRANSITION

### CARIBBEAN DEPTH STUDY

Why is Haiti so different from the rest of the Caribbean?

### RIVERS, COASTS AND GLACIATION

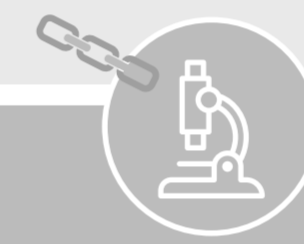

How does water shape land?

## YEAR 9

### RESOURCES

Are we heading for a Malthusian or Boserupian future?

### LOCAL AREA STUDY

Why does climate vary across our school's grounds?

## Mastery in Year 8

- Deepen understanding of cause and effect to explore how socio-economic development is influenced by social, economic, physical and environmental factors and the impact that global development is having on people and environments.
- Explore this interdependence and how it brings about spatial variation and change over time.
- Use and assess geographical information to make decisions.

## YEAR 8

### TROPICAL RAINFORESTS

How and why should we protect the remaining global forests?

### DEVELOPMENT

Why do inequalities still exist between countries and within countries?

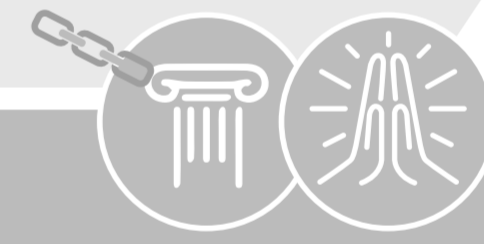

### OCEANS

What are the biggest threats to the world's oceans?

### MIDDLE EAST DEPTH STUDY

What opportunities and threats will shape the future of the Middle East?

### AFRICA DEPTH STUDY

How and why do regions of Africa vary?

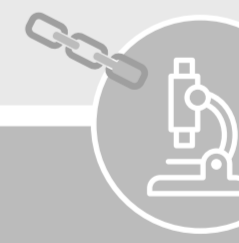

### LOCAL AREA STUDY

How and why does the problem of litter vary in our local area?

### PLATE TECTONICS

Why are some people more vulnerable to tectonic hazards than others?

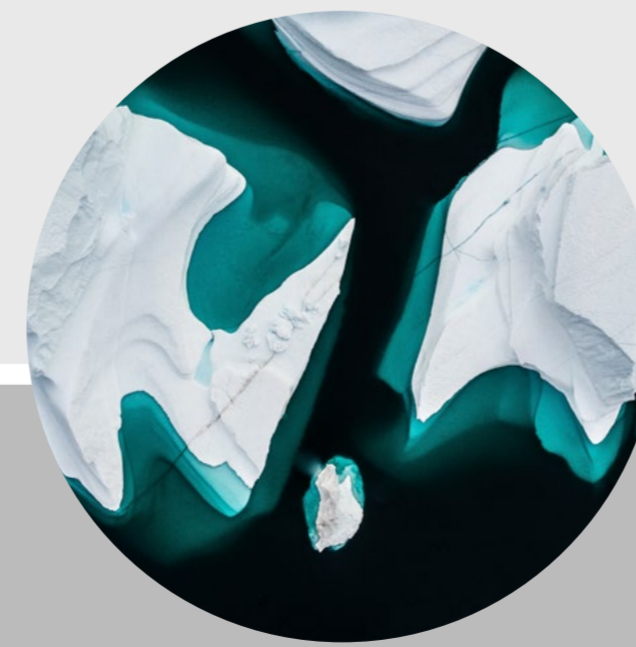

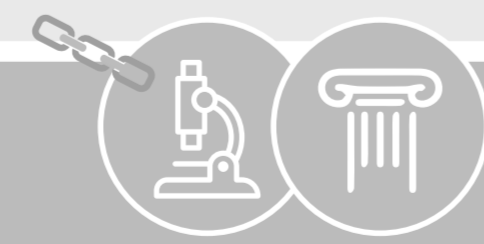

## Mastery in Year 7

- Distinguish physical geography from human geography
- Explain how physical geography and human geography influence one another.
- Distinguish between cause, effect and response.
- Categorise geographical information into physical, environmental, social and economic

## YEAR 7

### FANTASTIC PLACES!

Where are these fantastic places and what are their physical and human geographical features?

### CLIMATE CHANGE

Why is Climate Change happening and what can we do about it?

### POPULATION DYNAMICS

How is the UK's population likely to change in my lifetime?
